

## ***Second Announcement and Call for Papers***

**DET 2011**

**The 7<sup>th</sup> International Conference on  
Digital Enterprise Technology  
September 28-30, 2011  
ATHENS, GREECE**

### **SCOPE**

Digital Enterprise Technology (DET) is “the collection of systems and methods for the digital modeling and analysis of the global product development and realization process, in the context of lifecycle management.” The principal aim of **DET 2011** is to provide an international forum for the exchange of leading edge scientific knowledge and industrial experience, regarding the development and integration of the various aspects of DET.

### **TOPICS**

Enterprise Modeling and Integration Technologies, Manufacturing Systems and Processes Simulation, Enterprise Resource Planning, Digital Factory, Autonomous and Intelligent Enterprise Control, Real-time Decision Making and Decision Support Systems, Complex System Modeling and Analysis, e-Business and e-Commerce, Lean Production and Agile Manufacturing, Flexible and Reconfigurable Manufacturing, Concurrent Engineering, Supply Chain Management, Logistics and Manufacturing Data Management, Virtual Reality and Manufacturing, Web Services and Manufacturing, Life Cycle Design and Manufacturing, Energy efficient and Green manufacturing processes, Environmentally sustainable production systems, Collaborative Manufacturing and Engineering, Rapid Manufacturing, Reverse Engineering, Advanced Metrology, Engineering Education and Training

### **CONFERENCE LANGUAGE**

The conference language is English.

### **VENUE**

The Conference will be held in Athens, Greece, at The MARGI Hotel, at the resort area of Vouliagmeni, 8 Km east of the airport of Athens and 25 Km outside of the centre of Athens.

### **IMPORTANT DATES**
